PROFESSIONAL SUMMARY

Motivated Information Technology student at North-West University with a strong academic record and practical experience in software development, database systems, mobile application development, and network infrastructure. Passionate about building reliable, user-focused software and continually expanding technical knowledge through academic projects and independent learning. Seeking an opportunity to contribute to a collaborative development team while continuing to grow as a software developer.

EDUCATION

National Senior Certificate

Hoërskool Dr. Malan

Graduation Year: 2021

Extended Bachelor of Information Technology

North-West University

Expected Graduation: 2027

Current Average: 75%

TECHNICAL SKILLS

<u>Programming</u>	<u>Web</u>	<u>Databases</u>	<u>Tools</u>
C#, C++, Java, Delphi, Python	HTML5, CSS3, JavaScript	SQL Server, Oracle Database, SQL Server Management Studio (SSMS)	Visual Studio, Android Studio, Cisco Packet Tracer.

PROJECTS

Lerato Orphanage Management System

C#, SQL Server, Windows Forms

Developed a Windows Forms management system for an orphanage using C# and SQL Server. Implemented CRUD operations, data validation, search and sorting functionality, reporting features, and a normalized relational database while collaborating within a team-based software development project.

Packet Tracer Project

Cisco Packet Tracer

Designed and implemented the network infrastructure for a company's newly constructed office building using Cisco Packet Tracer. Planned the network topology, configured LANs, assigned IP addresses, and established connectivity between departments while applying networking principles and best practices for scalability and reliability.

Harmoni App (VIP Project)

Android Studio

Collaborated in the design and development of an Android application aimed at improving student well-being through health tracking, academic scheduling, task management, and event planning.

Zoo Kiosk

Delphi, Access

Developed an interactive kiosk application in Delphi using an Access database, demonstrating object-oriented programming, user interface design, and database integration.

WORK EXPERIENCE

Student Assistant — North-West University

2025-2026

- Assisted first-year students in the ITSP114 module.
- Helped explain programming concepts and practical exercises.
- Supported students during practical sessions.
- Provided individual technical assistance to students during examinations and practical assessments.
- Strengthened communication and leadership skills.

General Assistant — Pick n Pay

2021-2022 (4 months)

- Helped pack groceries for customers.
- Provided customer service.
- Was able to work under pressure.
- Participated in teamwork.
- Helped assist customers.
- Maintained composure and efficiency during busy periods.

CERTIFICATIONS

- Getting Started with Cisco Packet Tracer
- Introduction to Cybersecurity
- National Senior Certificate
- NWU Certificate for the Dress Code Policy Workshops

CORE COMPETENCIES

- | | |
|-------------------------------|-----------------------|
| • Object-Oriented Programming | • Database Design |
| • Software Development | • Problem Solving |
| • SQL Development | • Software Testing |
| • Data Validation | • Database Management |
| • Team Collaboration | • Communication |
| • Critical Thinking | • Time Management |
